Bo Thurmond joins Sanbolic as V.P. of North American Sales

Watertown, Massachusetts, January 27, 2010 Sanbolic announced today that Bo Thurmond has joined Sanbolic. Mr. Thurmond will be responsible for managing the significant growth in customer revenue and channel partners experienced in 2009. “In 2009 more than half of Sanbolic’s sales were outside of the U.S. However, strong quarter over quarter growth warrants the investment in U.S. operations and Mr. Thurmond comes with a great track record of success building channels,” according to Momchil Michailov, President and CEO.

Mr. Thurmond was most recently responsible for emerging markets and WW channels at Mazu Networks which was purchased by Riverbed. Prior to Mazu, Mr. Thurmond was V.P. of Sales at LiveVault which was purchased by Iron Mountain. He also held sales executive roles at Arrowpoint Communications, which was purchased by Cisco, and Shiva, which was purchased by Intel. Mr. Thurmond began his career at IBM and is a graduate of Northeastern University. In regards to his new position, Thurmond added, “I am thrilled to be joining Sanbolic at such an exciting time for the company. I look forward to working with our partners and the rest of the team at Sanbolic to significantly grow our business in North America.”

“Bringing on somebody of Bo’s experience and commitment to the channel, combined with Sanbolic’s recent Melio 2010 announcements, will stimulate new business for all of us.” said Larry Hozenthaler, Executive Vice President, Sales & Marketing of TotalTec, a Sanbolic partner.

Sanbolic has recently extended its shared storage software to provide solutions for data availability and application scalability in physical and virtual data centers. [Melio Datacenter Suite](#) installs easily on any Windows server and industry standard SAN storage. Melio Datacenter unifies data center storage management by enabling physical servers, hypervisors, and application servers on virtual machines to utilize a shared,

centrally managed, and flexible storage resource pool. Customers can download the evaluation software at www.sanbolic.com.

About Sanbolic, Inc.

Sanbolic, Inc is a Watertown, Massachusetts-based company that provides software for simplifying and sharing SAN storage. Sanbolic's products extend the capability of Windows applications by allowing SAN storage to be easily administered, expanded and reassigned, while supporting shared data access to improve application availability and/or application scalability. Sanbolic software currently supports Microsoft Windows Server 2003 R2, Windows Server 2008, and Windows Server 2008 R2. Sanbolic distributes its product solutions worldwide through a network of distributors, OEMs, VARs and system integrators.
